

EDUCATION

Waseda University

Master of Arts in Political Science, Graduate School of Political Science

Tokyo, Japan

2026–2028

- Supervisor: Prof. Shuhei Kurizaki.
- Thesis: From Efficiency to Resilience: The Political Economy of Trade Reorganization in an Era of Great Power Competition in Semiconductor Supplychain

Australian National University

Bachelor of Asia Pacific Affairs, College of Asia and the Pacific

Canberra, Australia

2023–2026

- CGPA: 5.57/7.
- Class Representative, ASIA2308 Linguistic Histories in Asia and the Pacific, Semester 1 2024.
- Relevant coursework: International Security Studies, Japanese Politics and Foreign Policy, Asian Economics, Peace and Conflict Studies.

Ritsumeikan University

Bachelor of Global Liberal Arts, College of Global Liberal Arts

Osaka, Japan

2022–2026

- CGPA: 3.85/5.
- Thesis: Western Sanctions, Russian Resilience, and the Failure of Deterrence in 2022 (Supervisor: Prof. Mayumi Shimura).
- Seminars: Prof. Mayumi Shimura, Prof. U. Aytun Ozturk, Prof. Eri Yamashita, and Prof. Huseyin Rasit.
- Relevant coursework: Statistics, Law of Conflicts, Sociology, Political Theory, Geographic Information Systems.

RESEARCH AND TRAINING EXPERIENCE

Ritsumeikan University

Student Research Assistant, Associate Professor Huseyin Rasit

Osaka, Japan

May 2025–Present

- Classify and analyze 120–130 political-bias observations per month from international newspaper coverage of protests and demonstrations for *Journalists of the Empire: Capitalism, Imperialism, and Misinformation*.
- Develop and maintain a Node.js/Playwright scraper to extract, normalize, and structure articles from The New York Times, The Times, and The Guardian into analysis-ready datasets.
- Contribute to content-analysis and media-bias detection frameworks by refining classification rules, checking edge cases, and documenting coding decisions.
- Cross-check coded entries with research-assistant peers to improve consistency, reduce subjective bias, and strengthen inter-coder reliability.

University of Michigan

Inter-university Consortium for Political and Social Research Summer Program

Ann Arbor, MI, USA

Summer 2024

- Studied quantitative social-science methods through intensive coursework in mathematics for social scientists, R, regression analysis, machine learning applications, Bayesian modeling, and network analysis.
- Strengthened foundations for policy research, statistical reasoning, and data-driven analysis in social-science settings.

PROFESSIONAL AND ADDITIONAL EXPERIENCE

ANA Kansai Airport Co., Ltd.

Internship

Osaka, Japan

October 2025–November 2025

- Developed a predictive-maintenance proposal using ACARS aircraft health data and Boeing Aircraft Health Management (AHM) to support earlier fault-risk detection and help reduce aircraft-on-ground (AOG) disruption risk.

- Designed an operations-coordination workflow linking Operations Management and Maintenance teams, with pre-arrival aircraft-condition sharing and proposed aircraft-swap (ship-change) decisions to protect on-time performance, safety, and resource planning.
- Framed maintenance data as an operational decision-support tool for disruption mitigation, aircraft utilization, and cross-functional coordination.

Individual Stock Investor

Market Research and ETF Portfolio Management

Independent

March 2022–Present

- Conduct independent market research across macroeconomic indicators, sector developments, natural resources, and geopolitical risk factors to inform long-term ETF allocation decisions.
- Manage a risk-aware personal portfolio covering S&P, NASDAQ, DAX, natural-resource, and Japanese-market ETFs, with attention to regional diversification and market-cycle exposure.
- Recorded a 25% portfolio return and 54% peak portfolio growth across the investment period while maintaining a diversified, research-led approach.

Amateur Photographer

Public Photography Portfolio

pexels.com/@railgunbreaker/

2010–Present

- Build and curate a public portfolio of 500+ images spanning civil aviation, railways, wildlife, traditional festivals, cultural landscapes, and art museum interiors.
- Apply alignment and stacking algorithms to long-exposure astrophotography workflows, combining image-processing discipline with creative production.
- Reached 4.5 million+ total views on Pexels, reflecting sustained portfolio development and public audience engagement.

SKILLS

- **Programming/Data:** Python (A+ in CIS1001, Ritsumeikan University), R, JavaScript, HTML, Markdown, L^AT_EX, IBM SPSS Statistics, ArcGIS (A grade, Ritsumeikan University).
- **Web/Tools:** Linux, Git, GitHub, Apache, LAMP, WordPress, Visual Studio Code, PyCharm, Node.js, Playwright.
- **Research/Analysis:** Quantitative social-science methods, regression analysis, machine learning applications, Bayesian modeling, network analysis, content analysis, media-bias classification, geopolitical and macroeconomic risk analysis.
- **Research Interests:** Immigration policy and labor-market/corporate-cost effects in post-deflationary Japan; international political economy; global trade and production networks; geopolitical risk and political expectations; post-WTO trade governance.
- **Languages:** Mandarin Chinese (native), English (fluent), Japanese (fluent).
- **Certifications/Licenses:** ACMA Amateur Radio Foundation recognition certificate; Japanese Class 1 driving license (ordinary vehicle).
